

2TEACH 2TOUCH

CITIZENS' PARTICIPATION IN WASTE MANAGEMENT

OUR PROJECT

The "2Teach2Touch" project aims at improving the necessary skills and competences of adults about waste economy.

It wants to enhance civic participation into waste management, by providing citizens with 5 training modules on the topic.

Objectives

- To provide information on household waste reduction and best consumption behavior,
- To provide detailed information on long-lasting, high-quality products, designed for reuse, repair and high-quality recycling in the household.

Co-funded by
the European Union
